ABOUT ME

I am a self-taught passionate Web Application Developer specialized in Frontend Web Development. As a full-stack (Frontend Focus) web developer, I can convert Figma design to the perfect responsive website template and give them life using ReactJS/Nextjs. I am very comfortable with the NextJS framework and have knowledge of both client and server-side rendering. I am a strong advocate for clean and maintainable code. I am experienced in writing modular, reusable, and scalable code, ensuring that projects are easy to maintain and extend in the future. I stay up-to-date with the latest trends and developments in frontend technologies, continuously expanding my skill set to deliver cutting-edge solutions.

OBJECTIVE:

I am a passionate and results-driven front-end web developer with a strong desire to contribute my skills and creativity to a dynamic team. My objective is to craft innovative, pixel-perfect, and user-centric web solutions that captivate audiences and drive engagement. I am committed to pushing the boundaries of web development by harnessing the power of cutting-edge technologies and best practices, all while collaborating with a forward-thinking organization to deliver exceptional digital experiences.
